Heliskiing/boarding is not just an extreme activity, in fact with the right choice of terrain and conditions, almost anyone can heliski. It's about getting out onto untouched snow, making first tracks, and never having to ride a chair lift!

HELI 1
Intermediate Skier/Boarder

You ski/board the blue runs, only sometimes go off piste, have little or no powder experience and ski/board up to 10 days per season.

HELI 2
Intermediate-Advanced Skier/Boarder

You ski/board the blue runs and some easier black runs, sometimes go off piste in good conditions, have some powder experience and ski/board 10-20 days per season.

HELI 3
Advanced Skier/Boarder

You mainly ski/board black runs, go off piste most of the time, have many days of powder experience and ski/board over 20 days per season.

HELI 4
Expert Skier/Boarder

You always ski/board black and double black runs, mostly ski/board off piste, and are an accomplished powder and "all snow condition" skier/boarder. You ski/board 40 days plus per season.

ALL OUR PACKAGES ARE

Imagine... your group, a professional guide, exclusive use of a helicopter and a sensational choice of terrain.

Soar along the backbone of New Zealand's Southern Alps seeking the ultimate lines on big mountains, glaciers and deep powder snow.

On a Private Charter you could ski up to 14 runs in a day.

It is in this stunning playground that we also choose a luncheon site for your group.

This is the real back country where snowfall is measured in metres and the picturesque landscape represents not only world class skiing/boarding, but also one of the most spectacular sightseeing journeys you could ever experience.

QUEENSTOWN & WANAKA PRIVATE CHARTER

Prices start at NZ \$6195 per day based on 5 people
(minimum numbers required)

ALPINE ACTIVITIES CAN BE DANGEROUS. WEATHER AND SNOW CONDITIONS CAN CHANGE RAPIDLY, A FACT THAT MUST BE RESPECTED BY ALL MOUNTAIN ADVENTURERS. BECAUSE OF THIS OUR NUMBER ONE PRIORITY IS YOUR SAFETY.

SAFETY

Ski Guides

Our guides hold professional ski-guiding industry qualifications, are highly experienced (locally and internationally), and most importantly can deliver an excellent heli day to all abilities of skiers and riders.

Snow Safety

Alpine Heliski has developed a comprehensive snow and avalanche management system including procedures for collecting weather and snow information, evaluating snowpack stability, assessing hazards in the terrain, and determining our daily skiing program. All clients are provided with avalanche safety beacons and instructed on their use.

Pilots & Helicopters

All of our pilots are highly skilled and experienced in winter mountain operations, and comply with New Zealand Civil Aviation Authority (CAA) Part 135 requirements.

FAQs

When is the best time to go Heliskiing?

The heliski season starts 1 July, and continues through to September 30. The earlier part of the season has colder, clearer conditions while the latter part of the season usually enjoys a great snow base and ongoing snowfalls.

Do I need powder skis/board?

Specialty powder skis and snowboards make your heli day that much more enjoyable. If you don't have your own equipment - hiring is a popular option and easily co-ordinated. Our staff can arrange the pick-up and drop-off of your hire equipment.

How long are the runs?

Run length varies depending on terrain and conditions (the average run would measure approximately 600 to 700 vertical metres).

What do I wear?

Dress as you would for a cold day at the resort (windproof jacket and pants, warm gloves, sunglasses or goggles and sunscreen). You don't need to ski/ride with a backpack. Casual shoes should be worn to the staging areas (carry your ski boots).

What about safety equipment?

All clients are provided with avalanche safety beacons and instructed on their use. Our guides will carry all other safety equipment.

All clients will be required to sign a booking and Waiver Form. All operations are at the discretion of Alpine Heli-Ski Ltd.
